Better Read These Terms of this Sale and Avoid Misunderstanding and Disappointment

as your bids will be accepted ONLY on the terms as specified below,
and no exceptions can or will be made for any one.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

No commission charge will be made on coins purchased for you at this Sale.

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalog. This guarantee holds good indefinitely. And my guarantee means something to you. Remember that there are thirty-eight years of proven successful numismatic experience and ample financial responsibility back of this guarantee.

NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me or those who have had no previous credit established, must send a deposit of at least 25% of their bids, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

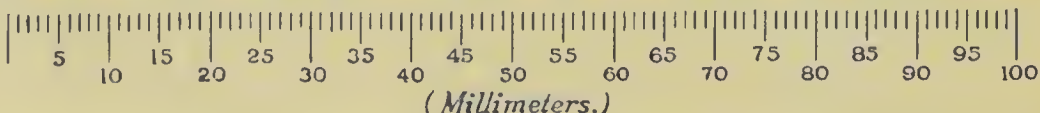

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing values of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, November 28th, 1939.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

The size of Coins and Medals in this Catalog is given by Millimeters.

WILLIAM BURTON HALE

WILLIAM BURTON HALE

Great Collector—Philanthropist Humanitarian

Words few or many, and no matter how carefully chosen, cannot adequately tell the life story of William Burton Hale, whose extensive and valuable Numismatic Collection is here offered.

Like all great collectors, Mr. Hale's interests were many and varied. Besides this great Numismatic Collection, he also had a valuable Stamp Collection.

Born on a farm at Adams Center, near Watertown, N. Y., where he began life on October 6, 1860, he never lost his love for rolling acres and growing crops, and prize-winning farm animals.

He studied and practiced law after leaving the farm and obtaining his education at the University of Rochester, (class of 1885), and in 1900 succeeded E. R. Andrews as head of the E. R. Andrews Printing Co., and the lawyer's publishing house.

Former Board Chairman of the Genesee Valley Trust Company; he was also Chairman of the Board of Colgate-Rochester Divinity School and secretary of the executive committee of Mechanics Institute. He was devoted to the Baptist Church, having been for years a member of the board of the American Baptist Home Missionary Society and a trustee of the First Baptist Church.

Mr. Hale was a wise and successful business man; a trusted adviser of the Mechanics Savings Bank, of which he was President from 1921 to 1936, and of whose board he was Chairman at the time of his passing. But along with the absorbing duties of his business career, his activities in connection with educational institutions went forward steadily and productively.

Wise, practical, humane; man of vision and common sense, he made major and vital contributions to the city of Rochester's business and educational character and eminence. His was a full and useful life.

BEAUTIFUL COLLECTION of SMALL UNITED STATES CENTS

The Small Cents, especially in choice condition, are now in greater demand than ever before. Their values have more than doubled in recent years, and are destined to reach a far higher peak in the near future.

- 1 1856 Copper-nickel. Raised borders, (evidence as having been struck as a proof). Uncirculated, with iridescent purple proof surface. Originally purchased as a proof, and in this condition now generally priced at \$50.00 and more.
- 2 1857 **Brilliant proof.** Not a bright unc. coin, but a genuine proof with raised borders. Only slightest touch of cabinet friction. Seldom equalled. Listed at \$15.00 and certainly worth it.
- 3 1857 Uncirculated; a real gem, sharp with frosty mint surface and raised borders. Very difficult to obtain so choice. Ordinary unc. specimens retail at \$3.50, but this specimen is one in a about a hundred.
- 4 1858 Small letters. Beautiful iridescent proof. In this condition as rare as the 1856. Listed at \$20.00.
- 5 1858 Large letters. Brilliant uncirculated; as perfect as the day it was minted. Listed at \$5.00.
- 6 1858 Small flying eagle. Reverse, laurel wreath. Copper-nickel; light purple proof. Far more rare than the 1856; only about 75 coined, while of the 1856 more than 500 were coined.
- 7 1858 **Indian head.** Copper-nickel; reverse, laurel wreath. Light purple proof; very high borders on obverse. Just as rare and valuable as last.
- 8 1858 Indian head. Rev., tobacco wreath as on the regular 1856 Cent. Copper-nickel proof. Very rare; more so than the 1856.
- 9 1859 Laurel wreath, without shield. Beautiful copper-nickel proof. Record nearly \$4.00.
- 10 1859 Type of 1860 with oak wreath and shield. Brilliant uncirculated, with proof surface; was purchased as a proof. Rare. Record up to near \$10.00.
- 11 1859 Variety with laurel wreath, but struck in **pure copper**. Brilliant proof; wire edge. Excessively rare. Only about 25 coined. One of the rarest cents of the series. At least a \$50.00 coin. If an 1856 in proof condition is worth \$50.00, this coin is at least twenty times as rare.
- 12 1859 Regular issue, copper-nickel but struck on a thin planchet. Just about half the thickness of the regular issue. Very good; undoubtedly rare. The first that I have ever seen.
- 13 1860 Regular issue, copper-nickel. Brilliant proof. Very scarce so choice. Record in one of my recent sales, \$4.25.
- 14 1861 **Perfect brilliant proof.** A real gem, and as such, of real rarity. Listed at \$15.00 and certainly worth it. Please remember, this is a gem proof.
- 15 1862 Brilliant proof. While this coin is listed at only \$2.50, but please remember there are proofs and "proofs."
- 16 1863 Copper-nickel. Perfect brilliant proof. A gem, more valuable than last.

- 17 1864 Copper-nickel. Sharp brilliant proof with wire edge. Now I'm going to make a rather broad statement. This is the most perfect 1864 copper-nickel cent I have ever seen; just as brilliant as the moment it dropped from the die, and in this remarkable condition it is worth any price.
- 18 1864 Copper-nickel; **thin planchet**. Listed as rarity 10; only about 15 coined. Perfect unc., with full mint luster. Very rare. Record over \$21.00.
- 19 1864 Bronze, but **thick planchet**. Listed as Rarity 8; only about 25 coined. Unc. Very rare; far more so than the 1856. At least a \$25.00 coin.
- 20 Duplicate set Copper-Nickel Cents, 1857, 1858 small and large letters; '59 to 1864. All perfect uncirculated. Very scarce set. (Listed price over \$20.00 for the set). Please make your bids by the piece and not by the lot. 9 pcs.
- 21 1864 Bronze, without "L" on ribbon. Brilliant proof, iridescent surface; sharp. Rare. Retails up to \$5.00.
- 22 1865 Perfect brilliant proof. Rare so choice.
- 23 1865 Type of regular issue, but struck in **pure nickel**; plain edge. Proof. Of excessive rarity. Classed as Rarity 14, according to this classification, only about three specimens were coined. I hardly think this is correct, but I doubt if more than a half dozen specimens are known. At least a \$50.00 coin.
- 24 1866 Brilliant proof; light surface. Another coin that is listed at \$5.00.
- 25 1867 Perfect brilliant proof. A perfect gem; as brilliant and perfect as the day it was minted. Listed at \$5.00, and in this state of perfection, is really worth a great deal more.
- 26 1868 Perfect brilliant proof. Magnificent specimen, also catalogs at \$5.00.
- 27 1869 Brilliant iridescent proof. Listed at \$5.00.
- 28 1870 Proof. Just as rare as last.
- 29 1871 Brilliant proof. Very rare. Listed at \$10.00, and some day in the near future, will bring double that amount. If you will kindly refer to some sale catalogs just a few years back, you will find this coin having sold for less than \$1.00.
- 30 1872 Beautiful brilliant proof; perfect in every respect. A record in my sales of \$10.50. That was at a time this coin was only listed at \$7.50. It is now listed at \$10.00, but try and get as perfect a proof at that price. In this condition it is as rare as the 1856.
- 31 1873 Perfect brilliant proof. Very scarce.
- 32 1874 Brilliant proof.
- 33 1875 Perfect brilliant proof; light, almost copper-nickel color. Rare so choice. Listed at \$3.00 and worth more so perfect.
- 34 1876 Perfect brilliant proof, with high wire edge. A gem and certainly worth its full listed price of \$4.00.
- 35 1877 The most perfect brilliant proof specimen of this rare cent I have seen in many years. It is brilliant and perfect in every respect. And in this remarkable condition I value it at \$25.00.
- 36 1877 Variety with the word STATES double-struck. Iridescent proof; purple surface. Rare. Ordinary proofs are listed at \$15.00.
- 37 1878 Perfect gem proof; light copper-nickel color; brilliant. Rare so choice. Seldom equalled.
- 38 1879, '80. Perfect brilliant gem proofs. Very scarce so choice. 2 pcs.

- 44 1899, 1900, '01, '02. Magnificent proofs. 4 pcs.
- 45 1903 Beautiful golden proof; 1904, '05, '06, '07, '08. All gem proofs. 6 pcs.

UNUSUALLY CHOICE COLLECTION of LARGE UNITED STATES CENTS

*William B. Hale Coll.
(see lot 202)*

Please note choice condition, rarity and varieties.

- 99 1793 The rarest variety of this rare date; Liberty head with cap and pole. Reverse, wreath; lettered edge, Crosby 12-L. A very light nick on upper left reverse edge, otherwise strictly very good and can certainly be classed as fine for this coin, as it is seldom found well struck up; perfectly centered, with full beaded borders; dark steel color. A most acceptable specimen of this great rarity. High auction record.
- 100 1794 Hays 7. Light die break through E of LIBERTY. Very good; very rare.

- 117 1796 Bust type; high 6 touching bust; two die breaks on either side of date. A small planchet defect on right edge. **Beautiful uncirculated specimen**; evenly struck, with glossy even brown surface. A gem of the highest order with record up to \$200.00, but just now these rare and choice Cents are not bringing their record prices, and this is the time to buy them.
- 118 1797 Broad milled border; close high date; point of 7 just touching bust. Beautiful uncirculated specimen with mint red turning to light olive. One of the sharpest specimens I have ever seen, and one of the most beautiful ones. Purchased by Mr. Hale in 1911. Truly a gem.
- 119 1797 So-called milled edge. Strictly fine; steel color. Very rare, especially so choice. Variety with die break through LIBERTY.
- 120 1797 Very curious mis-struck specimen with LIBERTY above and below bust. And incomplete legend on reverse. About fine. Said to have cost \$25.00, but not worth that today.
- 121 1797 Another curiously mis-struck specimen, with part of date under curls and complete date under bust. Reverse legend also very curiously mis-struck. Very fine; sharp, with dark olive surface. Rare.

- 124 1798 Large date. Reverse, slightly curved die break from E to fraction. Very fine; dark olive. A very scarce date to find so choice.

- 126 1799 Perfect date. Obverse, fine; reverse, very good, but fine for this coin. A pin-point nick at E of STATES. A most acceptable specimen of our rarest date cent. Mr. Hale purchased this from Mr. J. W. Scott, the founder of the Scott Co. and paid \$50.00 for this coin some forty-odd years ago. This and all of the other more valuable cents in this collection are in the original Hale boxes.
- 127 1800 over 1790. Unusually plain over-date. Variety with heavy die break on reverse edge at and to right of fraction. Very fine, with attractive chocolate surface. The cents of 1800 to and including 1802 in choice condition are far more rare than we realize.
- 128 1800 Perfect date. Obverse with plain border, slightly off center; reverse with partly wide milled border. Rare die. Fine.

The highest leaf terminates underneath the left edge of the last S in STATES, while No. 1 leaf terminates to the right of right edge of STATES. Only two or three known, one of these in possession of Mr. Howard Newcomb. Rarity 10!"
- Several years ago I purchased the Newcomb Collection of Half Cents and sold it to the late Col. Green. That specimen is probably out of the market for at least our lifetime, if not forever. The specimen here offered is a perfect, magnificent, brilliant red proof; sharp, with raised borders. It is undoubtedly the rarest Half Cent and one of the rarest of all American coins. A 1796 Half Cent has a record of over \$700.00. While this coin will not bring that amount today, but it should certainly bring well into the three figure mark, as the opportunity for its acquisition presents itself just about once in a lifetime. This coin has been in the Hale Collection for twenty-eight years.

I doubt if more than a half dozen specimens are known to exist. In my November, 1938, sale a similar specimen brought \$185.00, but the purchaser was willing to pay a great deal more. This is one of the rarest of all American copper coins.

Silver Coins of the United States

U. S. SILVER THREE-CENT PIECES

The smallest silver coin issued by the United States; issued from 1851 to 1873. These are now in great demand, especially in choice condition. Their values have been more than doubled in the last year or two. And I think that the present prices are still in their "infancy."

- 327 1851 Brilliant unc.; scarce so choice. Listed at \$2.50.

Remarkable Collection of United States
FIVE-CENTS SILVER and HALF DIMES

This beautiful collection of Half-Dimes was originally formed by the late great collector, Dr. Geo. P. French of Rochester, N. Y. After his death, it was acquired by Mr. T. James Clarke, immediate past president of the American Numismatic Association, (and one of the best presidents we have ever had) it took Dr. French nearly half a century to complete this collection in its present wonderful state of preservation. It is only just about once in a lifetime that we have an opportunity to acquire such gem specimens as are offered here.

- 352 1792 Martha Washington Half Disme. The first coin struck at the United States Mint from silver plate furnished by George Washington. Head of Liberty, supposed to be that of Martha Washington, rev., small flying eagle. Extremely fine with mint luster; only faintest hair line marks on obv., hardly noticeable. Rare and valuable and in this condition has a record of \$75.00. I consider this coin as a regular issue, as they are found in all states of preservation, and it is listed as a regular issue in Valentine's work on the subject.

The Half-Dimes are the first official issue of the United States Mint. As Mr. Valentine states, "The evidence for this comes from no less an authority than 'the Father of his country'." In his fourth annual address, November 6th, 1792, President Washington stated:

"In execution of the authority given by the legislature, measures have been taken for engaging some artists from abroad to aid in the establishment of our Mint. Others have been employed at home. Provisions have been made for the requisite buildings, and these are now putting into proper condition for the purposes of the establishment. There has been a small beginning and a coinage of half dismes, the want of small coins in circulation calling the first attention to them."

(From here on, where a number is given, it refers to Valentines work on the subject.)

- 353 1794 Wide date. Perfect die. V. 1. Newlin 2. Extremely fine with mint luster. Difficult date to find so choice.
- 354 1794 V. 2; N. 4. Close date. An imperceptible pin-point die nick on edge. Unc., with bright mint luster. A gem and a rarity. Newlin knew of only one specimen of this variety. Valued by former owner at \$50.00.
- 355 1794 V. 4. Variety with three berries under left wing. Very fine; rare, especially so choice.
- 356 1795 Same type as 1794. Curl terminates in seven ends. V. 1. Brilliant semi-proof just about equal to a proof; sharp. The die break showing up plainly. Highest rarity in this remarkable condition. Said to have cost \$30.00.

- 358 1795 V. 2-A. Extremely rare variety. Newlin knew of but one specimen. Die break across obv.; planchet marks on lower left. Unc. with mint luster. Gem pieces of this caliber are only obtainable when great collections such as this come on the market.
- 359 1795 V. 3. Beautiful unc. gem; sharp and perfect in every respect. Extremely rare variety. Newlin knew of only one specimen.

- 364 1795 V. 6. The rare variety with light die break on obv. Planchet marks; sharp unc.; very rare.
- 365 1796 V. 1. Magnificent brilliant semi-proof specimen of this rare date, and as such, I consider it of greatest rarity. It was originally purchased by Dr. French as a proof.
- 366 1797 Fifteen stars. Extremely fine; considerable luster. This coin is rare in any condition, but is seldom found better than good. Quite a rarity when so choice.
- 367 1797 Sixteen stars; rev., sixteen leaves on left branch. Extremely fine with considerable mint luster; only a shade from uncirculated. Valued by former owner at \$30.00.
- 368 1797 Sixteen stars, but with die break on rev. and only fifteen leaves on left branch. Said to be unique. Very fine; excessively rare.

- 370 1800 LIBERTY variety. Uncirculated gem with full mint luster; of excessive rarity in this remarkable condition.
- 371 1801 A small nick on obv. edge. Fine. Very rare. The fact that this is the best specimen that the great collectors who have owned this piece could get is evidence enough of the rarity of this coin. It is seldom obtainable but about fair.

Lot No. 372

The Exceedingly Rare Five-Cent Silver Piece or Half-Dime of 1802

1802 Half-Dime. The same general design of the Half-Dimes of this period. Very fine, evidence of circulation evenly distributed; free from any nicks or dents. Well centered and struck. One of the very best known specimens of this great rarity of which probably three or four are known in better than fair condition. This coin has always been considered as the second rarest United States silver coin, next in rarity to the 1804 Dollar. 'Way back in 1907, in the Wilson Sale, a similar specimen brought over \$700.00. There are far fewer specimens of the 1802 Half-Dime known in fine condition than there are of the 1804 Dollars. I believe this specimen, as well as I can recollect, is equal to the one sold in the Wilson Sale.

U. S. TEN-CENT PIECES or DIMES

I respectfully call your attention to the general remarkable state of preservation of this collection of dimes. As heretofore stated, gem pieces of this type are only available when such great collections as the Hale and Clarke come on the market. The opportunities for the purchase of such fine coins are as rare as are the coins.

BRANCH MINT U. S. GOLD DOLLARS

Charlotte Mint

- 699 1849 **Uncirculated, with bright mint luster.** Scarce in any condition, but very rare so choice. Not even listed in this condition in the standard catalog.

- 700 1851 **About uncirculated; sharp, with mint luster especially on reverse.**

- 701 1852 Uncirculated, with full frosty mint luster; sharp and perfect in every respect. Very rare so choice.
- 702 1853 Brilliant uncirculated, with proof-like surface. A real rarity so choice. Listed at \$10.00 in only very fine condition.
- 703 1855 Practically uncirculated. The 8, as usual, not boldly struck up. But far above the average in sharpness. Rare.
- 704 1857 Uncirculated, sharp, with frosty mint surface. Very rare. Listed at \$15.00 in only very fine condition.
- 705 1859 Last year of issue. Extremely fine; only highest portions show slight cabinet friction. Just as rare as last.

Dahlonge Mint Gold Dollars

- 706 1849 The first year of issue, and the least rare, but this is the most beautiful and remarkable specimen of this coin I have ever seen. It is absolutely uncirculated mint condition, struck with raised borders and with full bright mint luster. Truly a gem, and as such, of great rarity and value.
- 707 1850 Practically uncirculated; only highest portions show slight cabinet friction; bold impression. Very rare. This coin is listed at \$12.50 in very fine condition, yet a specimen in that condition, recently brought at auction \$21.00.
- 708 1851 Uncirculated; frosty mint luster. Listed at \$15.00 in very fine condition; and in uncirculated condition, should be worth a great deal more.
- 709 1852 Just a shade from uncirculated, but with considerable mint luster. As rare as last.
- 710 1853 Uncirculated, with semi-proof surface; highest portion of Liberty head show slight cabinet friction. One of the best I have seen of this rarity.
- 711 1854 Uncirculated, with frosty mint surface. Rare in any condition. Only a fine specimen recently brought \$25.00.
- 712 1856 Extremely fine; just a shade from unc. Excessively rare. Listed up to \$125.00 in very fine condition.
- 713 1858 The most remarkable specimen of this gold dollar I have ever seen: First of all, it is uncirculated, then the date is boldly struck up. I do not recall of ever having seen the 1858 D gold dollar with the first 8 and 5 struck up; they are always found weak. This specimen is undoubtedly from an early impression of the die, as it is struck sharp, well centered, with full raised borders and full mint luster. In this remarkable condition I consider it one of the greatest rarities of the entire series. The coin is listed at \$15.00 in very fine condition, yet a specimen in that condition, last June, brought at auction \$19.00. The one here offered, in comparison, is worth several times that amount.
- 714 1859 Extremely fine, with considerable luster, especially on obverse. Rare.
- 715 1860 Very fine; has the appearance of a proof, having been cleaned. One of the rarest of all gold dollars. Listed up to \$150.00.
- 716 1861 The highest portions of head show slightest cabinet friction, otherwise the coin is uncirculated with nearly full mint luster. Mr. Hale paid \$250.00 for this coin many years ago. It is not that valuable today, although it is listed up to \$300.00. A recent auction record of \$137.50.

New Orleans Mint Gold Dollars

- 717 1849 Uncirculated, with frosty mint luster. Scarce so choice. Catalogs at \$5.00.
- 718 1850 Brilliant uncirculated, with proof surface. A pin-point nick on reverse edge, apparently done in the die. Rare so choice.
- 719 1851 Uncirculated; semi-proof surface.
- 720 1852 About fine.
- 721 1853 Uncirculated, frosty mint surface. Very scarce so choice.
- 722 1855 Last year of issue and the scarcest gold dollar of this mint. Brilliant semi-proof; nearly equal to a proof. One of the finest specimens I have seen. From the Rawson Sale held by me in December, 1922. Cost \$6.00 at that time; certainly worth a great deal more today.

- 725 1857 Just about uncirculated, with full frosty mint luster. Rare, especially so choice. Although this coin is cataloged at only \$10.00, yet a specimen recently brought \$20.00 at auction.
- 726 1858 Uncirculated; as perfect as the day it was minted. I do not recall of ever having seen an equal and certainly not a better specimen of this coin. It is superb, and as such, very rare and valuable.
- 727 1859 Extremely fine; just a shade from uncirculated, with frosty mint luster.
- 728 1860 Practically uncirculated; considerable luster. Rare. Listed at \$15.00 in very fine.
- 729 1870 The last year of issue, and by far the rarest. Perfect uncirculated specimen, with full bright mint luster; as perfect a gem of this rarity as exists. Listed up to \$150.00. If any 1870 S gold dollar is worth \$150.00, this is certainly it.

U. S. Commemorative Gold Dollars

All uncirculated. A beautiful and scarce set; in great demand and values steadily advancing. These coins have just about doubled in value in the past few years. As the retail value of this set is \$97.00, or an average of more than \$9.00 per coin, please do not indulge in a "guessing contest." This set should bring near its full retail value, as they are constantly advancing in prices. Please make your bid at so much per piece and not by the lot. 9 pcs.

(In looking up records of this coin, I cannot find a record in any of the great collections sold in the past quarter of a century; in other words, such great collections as the Earle, Stickney, Ten Eyck, and even the Newcomer Collection, did not have a proof specimen of this coin). I consider this coin, in its remarkable condition, as rare as ANY \$3.00 gold piece, not even excepting the 1875. While this coin is listed in the Standard catalog at only \$50.00, but like many other coins listed therein, it is worth several times that amount.

- 957 1828 Perfect date and die. Was originally purchased as a brilliant proof, and the coin is near a brilliant proof as I have ever seen one. Sharp and perfect in every respect. Valued by former owner at \$20.00, and in this remarkable condition, certainly worth more.
- 958 1831 Large letters on reverse; bright uncirculated, with full mint luster. Rare so choice. Seldom found better than fine or very fine.

- 971 1842 Large date. Uncirculated; proof surface.
- 972 1843 Uncirculated; full mint luster.
- 973 1844 Uncirculated. Very scarce, so choice. As these Quarter-Dollars in the '40's and early '50's, in uncirculated condition are listed at \$4.00 to \$10.00 each, it is well to make your bids accordingly, as these are in great demand and it would save us both a lot of time to avoid bidding on the basis of prices of ten years or more.

- 1485 1934 (None coined from 1922 to 1933 inclusive), 1935, '36. Brilliant uncirculated. 3 pcs.

The BRANCH MINT HALF-DOLLARS

This series is coming to the front in great strides. The coins have more than doubled in value in just a short time. Choice specimens are only available when great collections come on the market. The wise collector will do well in completing his set now, as I feel confident that in the not too distant future, this series, like practically all other U. S. coins, will prove a most profitable investment.

NEW ORLEANS MINT HALF-DOLLARS

- 1486 1839 O between bust and date. Light die break connecting all stars and date, and on reverse, connecting most of legend. Brilliant uncirculated; as perfect as the day it was minted. Very rare so choice. Listed at \$7.50, and worth a great deal more in this beautiful condition.

- 1488 1840 Date distant from base. Reverse, slight die break through L of DOL. Uncirculated, with slightest cabinet friction.

- 1490 1842 Large date. Uncirculated; full mint luster.
- 1491 1843 Beautiful uncirculated specimen; sharp, and just as perfect as the day it was minted. Far more rare, so choice, than is generally recognized.

- 1500 1849 Same variety as last, but reverse, upside down. Uncirculated.
- 1501 1850 O over and slightly to right of F; thin O. Brilliant uncirculated.
- 1502 1850 Thin O, directly over F. Bright uncirculated.
- 1503 1851 O central. Bright uncirculated; unusually sharp impression.
- 1504 1851 O high. Brilliant semi-proof; just about equal to a proof. A gem.
- 1505 1852 Very fine. Rare.
- 1506 1853 Rays and arrows; only year of this type. Uncirculated, with mint luster. Quite rare so choice. Listed at \$10.00.
- 1507 1854 Perfect date. Brilliant uncirculated.
- 1508 1854 Heavy double-cut date. Uncirculated, with full mint luster.
- 1509 1855 Brilliant uncirculated; just as perfect as the day it was minted.

- 1510 1856 The rare variety with date twice engraved, and still more rare condition, bright uncirculated. A gem, and quite a rarity.
- 1511 1857 Bright uncirculated. Very scarce so choice.
- 1512 1858 Uncirculated, with full mint luster.
- 1513 1859 Uncirculated, brilliant.
- 1514 1860 Brilliant semi-proof. Rare so choice.
- 1515 1861 Type of regular issue. Coinage discontinued in this year, as the mint was captured by the Confederacy, and the Half-Dollars of this date and mint are supposed to have been struck by the Confederates. Brilliant uncirculated, with proof surface.
- 1516 1861 Confederate Half-Dollar, re-strike. Struck from the original Confederate dies on a regular U. S. Half-Dollar of 1861. Very fine. Rare and in great demand. Record over \$30.00.
- 1517 1892 First year of issue after the discontinuance in 1861. Brilliant semi-proof. Rare so choice.
- 1518 1892 The excessively rare variety with microscopic mint letter O. Practically uncirculated. Of highest rarity, and has a record at private sale of \$50.00.
- 1519 1893 Brilliant uncirculated; with frosty mint luster.
- 1520 1894 About uncirculated; highest portions show slight cabinet friction. Very scarce.
- 1521 1895 Uncirculated; sharp. Rare. Listed at \$6.00, and far underrated as to value.
- 1522 1896 Uncirculated, with proof surface.
- 1523 1897 Brilliant semi-proof. Record over \$8.00.
- 1524 1898 Although proofs were not supposed to have been struck, but this is as perfect a proof as any I have seen, and as such, rare and valuable.
- 1525 1899 Brilliant uncirculated.
- 1526 1900 Uncirculated, with full frosty mint luster. A beauty.
- 1527 1901 Brilliant semi-proof; just about equal to a proof. Listed at \$10.00 in uncirculated condition. This one should be worth at least double.
- 1528 1902 About uncirculated, with considerable mint luster. Quite rare.
- 1529 1903 Brilliant uncirculated. Rare so choice.
- 1530 1904 Brilliant uncirculated, with full mint luster. Quite rare. Listed at \$6.00. Very recent auction record of \$7.00, and I think still far from its true value in mint condition.
- 1531 1905 Uncirculated; highest portions show slight cabinet friction. Very scarce.
- 1532 1906 Sharp uncirculated, with raised borders; full mint luster. Listed at only \$4.00, but recent record of \$6.00 for a not brilliant uncirculated specimen. This is one of the rarest dates of the later years of this mint, and is worth a great deal more than its recent record price.
- 1533 1907 Brilliant uncirculated. Just about as rare as last.
- 1534 1908 Uncirculated; full mint luster. Listed at \$5.00, and worth much more.
- 1535 1909 Bright uncirculated. Very scarce. Last year of issue.

CARSON CITY MINT HALF-DOLLARS

- 1536 1870 About fine. Was originally purchased as fine to very fine. This rarity is seldom found better. Very rare and valuable. Seldom offered.
- 1537 1871 About fine. Reverse, is fine. Extremely rare. Record for no better specimen, over \$30.00 at private sale. Seldom found better.
- 1538 1872 About fine. Very rare. Listed at \$15.00 to \$25.00. Seldom found as good.

- 1539 1873 Variety without arrows. Extremely fine. Seldom found better than good. Extremely rare so choice. Listed at \$30.00 in very fine condition. This specimen is just a shade from uncirculated, and is one of the very best of this date and mint I have ever seen. Mr. Hale paid \$20.00 for this coin more than a quarter of a century ago.
- 1540 1873 With arrows at date. Although this variety is listed as less rare than the one without arrows, but I consider it at least twice as rare. Very good. Extremely rare. I know of one specimen slightly better than this which brought \$45.00.
- 1541 1874 With arrowheads at sides of date. Only highest portions show slight cabinet friction; otherwise it is uncirculated, with semi-proof surface. Catalogs at \$30.00 in very fine condition. This specimen worth a great deal more. It is extremely rare in this remarkable condition.
- 1542 1875 Uncirculated; frosty mint surface. Very scarce so choice.
- 1543 1876 Brilliant uncirculated, with proof surface. Certainly worth all and more than its catalog price of \$5.00.
- 1544 1877 Uneven CC, widely spaced. Brilliant uncirculated; sharp, with full mint luster.
- 1545 1877 Even and high CC's. Brilliant semi-proof; sharp. A gem.
- 1546 1878 Last year of issue. Just about fine. Seldom found better. Very rare. Listed at \$20.00 in only fine condition.

SAN FRANCISCO MINT HALF-DOLLARS

- 1547 1856 Extremely fine, with mint luster. Light, hardly noticeable nick, on obverse. Rare. Listed at \$20.00 in very fine condition, and seldom found so choice.
- 1548 1857 Fine. Very rare; far more so than is generally recognized. Listed at \$22.50 in very fine condition.
- 1549 1858 About fine. Very rare.
- 1550 1859 Fine to very fine; seldom found so good. Very rare.
- 1551 1860 Practically **uncirculated**, with mint luster. Very rare. Record at \$20.00 for an inferior specimen.
- 1552 1861 Small S. Brilliant uncirculated, with proof surface. Undoubtedly as choice a specimen of this rarity as exists, and in this remarkable condition, practically priceless. Valued by former owner at \$30.00.
- 1553 1861 Large S. A perfect mate to the preceding lot; beautiful uncirculated; as perfect as the day it was minted, and just as rare and valuable as last.
- 1554 1862 Large S. Fine. Rare.
- 1555 1863 Small S. About fine. Very scarce.
- 1556 1864 Large S in date. **Uncirculated**. Very rare so choice. Valued at \$15.00 by former owner.
- 1557 1864 Microscopic S. Practically uncirculated, with nice bright surface. Rare so choice.
- 1558 1865 Very fine. Variety with die breaks on reverse. Rare. An uncirculated specimen was recently sold at \$20.00.
- 1559 1866 Without motto. Fine to very fine. Considered very rare. It is listed at \$10.00 to \$20.00 for fine to very fine specimen. This, in my humble opinion, is far over-rated. The coin is not nearly as rare as it is supposed to be, and about half of its listed value would be more than sufficient. This comment is based upon the comparative number of these coins that has passed through my hands in recent years.
- 1560 1866 Second issue, **with motto**. Strictly very fine; can be classed as extremely fine, especially for this coin, which is at least four or five times as rare as the variety without motto. If the '66 without motto is listed at \$20.00 in very fine condition, this variety, with motto, should be listed at at least \$100.00.

- 1561 1867 Practically uncirculated, with mint luster. Rare condition.
- 1562 1868 Brilliant uncirculated; as perfect as the day it was minted. A real rarity in this remarkable condition.
- 1563 1869 About fine. Scarce.
- 1564 1870 **Uncirculated.** Extremely rare in this condition. It is listed at \$5.00 in very fine, and has brought more than that at auction. But in uncirculated condition, it is worth at least five to ten times as much as a very fine specimen.
- 1565 1870 Mis-struck, with wide border on left, and **plain edge.** Quite a curiosity. Two scratches on obverse, (not as bad as it sounds). Fine to very fine. Rare and in much demand.
- 1566 1871 Mint letter S high. Brilliant uncirculated; as perfect as the day it was minted. Valued by former owner at \$15.00, and certainly worth that, and more, in its remarkable condition.
- 1567 1871 S lower and to left. Practically uncirculated, with considerable luster.
- 1568 1872 Fine. Rare; far more so than is generally known.
- 1569 1873 With arrowheads at sides of date. Fine. Quite rare.
- 1570 1874 Practically uncirculated, with mint luster. Catalogs at \$15.00, and even at that price, is unobtainable in uncirculated condition.
- 1571 1875 Uncirculated, with frosty mint luster. Very scarce so choice.
- 1572 1876 Small S, high. Uncirculated, with mint luster.
- 1573 1876 Microscopic S central. Uncirculated; full mint luster.
- 1574 1877 Brilliant uncirculated.
- 1575 1878 Small S, as all are. Practically uncirculated, with considerable semi-proof surface. I doubt if the coin was in circulation at all, as what wear it shows, is undoubtedly only cabinet friction. It is not the finest specimen known of this great rarity. I have handled brilliant specimens, but not over two or three in my entire experience of nearly forty years. I consider this coin far more rare than the 1796 and 1797 Half-Dollars. In fact, I class it as the third rarest Half-Dollar: the 1853 O Mint, without rays and arrows as No. 1 rarity; 1838 O No. 2 rarity, and 1878 S, as No. 3. Then come the 1796 and 1797. If you disagree with me, I would appreciate your reason for it.
- 1576 1893 Practically uncirculated. Rare, far more so than its listed price of \$6.00 would signify. Sold one recently at private sale for \$11.00, but worth more today.
- 1577 1894 Uncirculated; obverse nearly proof. Very rare so choice.
- 1578 1895 Brilliant uncirculated. Rare and in great demand.
- 1579 1896 Brilliant uncirculated, with proof surface; nearly equal to a brilliant proof.
- 1580 1897 Uncirculated; frosty mint luster. This coin is listed at \$6.00, but one recently sold for \$11.00.
- 1581 1898 Brilliant uncirculated.
- 1582 1899 Brilliant uncirculated.
- 1583 1900 Brilliant uncirculated.
- 1584 1901 Fine, strictly so. Rare.
- 1585 1902 Fine. Rare.
- 1586 1903 Brilliant uncirculated. Very rare so choice.
- 1587 1905 Uncirculated; mint luster. Far more rare than its listed price of \$5.00 would signify. Have sold at private sale for more than double.
- 1588 1906 Uncirculated; only highest portions show slightest cabinet friction; considerable mint luster. Very scarce.
- 1589 1907 Uncirculated, with considerable luster. Rare and in demand.
- 1590 1908 Brilliant uncirculated. Light hair-line scratch on cheek, hardly noticeable.
- 1591 1909 Uncirculated; mint luster. Rare and in demand.
- 1592 1910 Brilliant uncirculated.

- 1593 1911 Brilliant uncirculated. Very rare; date and condition.
- 1594 1912 Uncirculated; very slight mark on cheek. Scarce date in rare condition.
- 1595 1913 Uncirculated. Rare date and rare condition. Listed at \$7.50, but a very recent auction record of \$8.75, and worth a great deal more.
- 1596 1914 Brilliant uncirculated, with full bright mint luster. A real rarity, especially so choice.
- 1597 1915 Brilliant uncirculated; very slightly cabinet rubbed on cheek. Generally sells for more than its listed price of \$6.00.
- 1598 1915 Panama-Pacific. Brilliant uncirculated; as perfect as the day it was minted, with full mint luster. Mr. Hale secured this and the following specimen, direct from the Commission, in 1915, and have never been out of his collection until now. As perfect a specimen of this rare commemorative as I have ever seen. It is certainly worth its listed price of \$17.50, if not more.
- 1599 1915 Panama-Pacific. Brilliant uncirculated. Just as perfect and beautiful as last.
- 1600 1916 Liberty Standing. First year of issue; mint letter S on obverse, as all are of this date. Uncirculated. Very scarce. Recent record much above its listed price of \$7.50. Worth at least double.
- 1601 1917 Variety with mint letter S on reverse. Uncirculated. Rare.
- 1602 1917 The rare variety with mint letter S on obverse. About fine. This is the rarest branch mint Half-Dollar of the Liberty Standing type, and I consider it almost next in rarity to the 1878 S. While this is not an uncirculated specimen, it is still very rare and seldom offered.
- 1603 1918 S on reverse, as are all of this and following years. Uncirculated. Rare and in great demand. Recent record much higher than its listed price of \$6.00.
- 1604 1919 Brilliant uncirculated. Very rare. Although this coin is listed at \$6.50, a similar specimen in my last Sale brought \$13.60, but there were at least three other bidders willing to pay that amount. It would not surprise me to see this coin bring \$20.00 or more.
- 1605 1920 Uncirculated. Rare. Just about as rare as last.
- 1606 1921 Bright uncirculated. Just as rare as last.
- 1607 1923 (None coined in 1922). Brilliant uncirculated. Listed at \$6.50, with just a recent record of considerable more.
- 1608 1927 (None coined in 1924, '25 and '26). Uncirculated. Recent records considerable more than its listed price.
- 1609 1928 Brilliant uncirculated. Rare.
- 1610 1929 Brilliant uncirculated.
- 1611 1933 Uncirculated. Very scarce.
- 1612 1934 Brilliant uncirculated. Very scarce.
- 1613 1935 Brilliant uncirculated.
- 1614 1936 Brilliant uncirculated.
- 1615 1937 Brilliant uncirculated.

- 1623 1916 Liberty standing. Uncirculated. Rare.

- 1625 1917 D on reverse. Bright uncirculated. Very scarce. Listed at \$7.50, but a very recent record of \$11.50. It is really at least a \$20.00 coin.

- 1627 1920 Bright uncirculated. Catalogs at \$5.00, but a very recent record of \$8.25. And in the very near future, these prices will seem insignificant.

- 1629 1929 (None coined from 1922 to 1928 inclusive.) Bright uncirculated.

COMMEMORATIVE U. S. SILVER HALF-DOLLARS

- 1640 Complete collection of all the different types of the Commemorative Half-Dollars issued from 1892 to 1938, including one of each type issued; including all the rarities such as the Panama-Pacific, Missouri, Hawaii, Vancouver, etc. All in mint condition. This set is listed separately, totals up to \$170.00. If you do not care for all the different mints, this is certainly an ideal set, as well as a beautiful one. 45 pieces, but please make your bid by the lot. Bids of less than \$100.00 for the lot will not be considered.

COLLECTION of COMMEMORATIVE HALF DOLLARS TYPES and BRANCH MINTS

- 1641 Beautiful Collection from 1892 to 1938, including both varieties of Missouri's, and both brilliant uncirculated; both varieties of Alabama; the extremely rare Grant with star, a beautiful mint specimen, the rare Boones of 1935; complete set of 1936 Boones, and only the Philadelphia of 1937 Boones. Also, the thick and thin variety of the Norse American, octagonal. A total of 90 coins, all in brilliant mint state, as perfect as it is possible to obtain. This collection, at the present already reduced prices, retail \$370.00 if purchased separately. Sold as a lot. In order to save time, bids for less than \$225.00 will not be considered, as similar sets have sold, during the peak, at well over \$500.00. Whatever may be said about the manner in which some of these issues have been promoted, nothing but praise can be given to the great majority of the coins for their beautiful designs and historical interest. It appears that the surplus issues speculated in by collectors and small dealers have about all been absorbed, and I feel that this beautiful series is again on the up-grade in popularity and values. Please don't overlook to make your bid on this and the preceding lot by the lot and not by the piece.
(A continuation of the U. S. Silver Series of this great Collection begins with Lot No. 1767.)

**U. S. EAGLES or TEN-DOLLAR GOLD PIECES
PHILADELPHIA MINT**

- 1642 1795 First year of issue. Variety with top of 5 touching bust. Very fine; some luster; a very light, hardly noticeable scratch on obverse. Rare and in demand. Retails at \$75.00 to \$100.00.
- 1643 1796 Same type as last. Practically uncirculated, with some proof surface; a pin-point nick on left obverse. A beautiful specimen of this rare date. Just recently a polished and tooled specimen of this date brought over \$90.00 at auction.
- 1644 1797 The extremely rare variety with small eagle on reverse. The usual die break on obverse. Practically uncirculated; sharp, with mint luster. A gem of this rarity. Listed at \$150.00.
- 1645 1797 Obverse, same type as last, but of an entirely different die; stars smaller and differently spaced. Six stars to right, and ten stars to left. Reverse, heraldic eagle. Obverse, very fine; reverse, about uncirculated, with proof surface. Catalogs at \$50.00.

- 1647 1799 Large stars. It is difficult to say just what condition this coin is in. Apparently, it was an uncirculated specimen, but it has been very skillfully polished, where it is now as beautiful a proof as I have ever seen of this date. But, of course, I'm not cataloging it as a proof. But it is a magnificent coin to own and show.

- 1649 1801 Very fine.

- 1668 1870 Nearly uncirculated, with considerable mint luster. From the famous Woodin Sale, 1911.

- 1674 1882 About uncirculated.
- 1675 1884 Extremely fine.
- 1676 1885 **Perfect brilliant proof.** Very rare in proof, as I doubt if as many as 50 or 100 proofs of these were struck.
- 1677 1886 About uncirculated, with mint luster.
- 1678 1888 Beautiful perfect brilliant proof, with complete sharp wire edge. Very rare in this beautiful condition. Worth every bit and more of its listed price of \$45.00.

COLLECTION of SILVER DOLLARS of the UNITED STATES

A remarkable Collection, complete with very few exceptions, and, above all, as a whole, in most choice state of preservation.

PHILADELPHIA MINT SILVER DOLLARS

- 1767 1794 Our first year of the Dollar. Strictly very good; the left side of obverse and corresponding side of reverse not as bold as other portions of the coin. This is invariably the case with every 1794 Dollar known, but on this specimen, everything is very plain on the left side, and can almost be classed as fine for coin. Mr. Hale bought this coin at \$132.00 in my Sale of 1928. Rare and valuable, and in great demand.
- 1768 1795 Hazeltine No. 4. So-called tall or large head, with point of bust between the first two stars on right. Strictly fine; raised borders on obverse. Very scarce.

For the information of the newer collectors, "Hazeltine" refers to a catalog on the early U. S. Silver, published about fifty years ago. It is the standard on the subject even at this late date. The original Hazeltine is very rare, and has brought as much as \$30.00 per copy. However, in 1937, I reprinted the catalog on finer paper and included quite a number of Half-Dollars that were not listed in the original Hazeltine and also included in it a list of the famous Dollars of 1804, giving the names of previous and present owners, and prices realized. In other words, the reprint is far more complete and valuable than the original issue, which sold up to \$30.00 per copy. I have a few of the reprints on hand which I now here offer, as long as they last, at only \$2.50 each.

- 1769 1795 Hazeltine No. 5 Beautiful sharp **uncirculated**, with full mint luster. A gem, and as such, very rare and valuable. Valued by former owner at \$100.00. This is not a so-called uncirculated "for the coin," but an honest-to-goodness bright mint specimen.
- 1770 1795 H. No. 7. Seven berries on each branch; tall head. Light small scratch on obverse, otherwise very fine; sharp impression. Very rare variety.
- 1771 1795 Smaller head. Obverse not in Hazeltine; reverse, H. No. 5. Variety with three leaves under wings. Very fine; sharp, with mint luster.
- 1772 1795 H. No. 9. Very small head; star touching bust. Just a shade from uncirculated, with frosty mint surface. Bought of Henry Chapman at \$50.00.
- 1773 1795 H. No. 11. Ten berries on right and 9 on left branch. Strictly fine. Extremely rare variety.
- 1774 1795 Bust type. H. No. 14. Star on left close to curl; on right, distant from bust. Extremely fine, with mint luster. Very rare, especially so choice. Cost over \$20.00.
- 1775 1795 Bust type. Practically uncirculated, with brilliant semi-proof surface. Originally purchased as a strictly uncirculated specimen. It is sharp, and one of the finest specimens of this date I have seen. Originally valued at \$70.00.

- 1776 1796 Hazeltine No. 1. The excessively rare date with small date and small letters, and what is most important, it is extremely fine, with some mint luster. Rare in any condition, and almost priceless so choice. Catalogs at \$35.00 in "very fine," but worth a great deal more in this remarkable condition for this coin.
- 1777 1796 H. No. 4. Small date; large letters. Extremely fine; sharp. A most difficult date to find choice. Rare and valuable.
- 1778 1796 H. No. 5. Large date, and small letters; die break on reverse. Extremely fine, with some luster. Valued at \$25.00 by former owner.
- 1779 1796 Small date and large letters. Apparently not in Hazeltine. The date is small and wide, and due to die imperfection, the 7 is double-struck. Reverse, large letters, but with 8 berries in wreath, and perfect die. Strictly fine. Undoubtedly very rare.
- 1780 1797 H. No. 1. Seven stars to right. Reverse, 8 berries in wreath. Very fine; sharp. Very rare.
- 1781 1797 H. No. 2. Seven stars to right,—7 berries in wreath. Strictly fine. Very scarce.
- 1782 1797 H. No. 3. Six stars to right. Very fine. Very scarce.
- 1783 1798 H. No. 1. The rare variety with small eagle on reverse; thirteen stars. Unusually large letters on reverse. Fine; strictly so. Far more rare than is generally recognized.
- 1784 1798 H. 2. The very rare variety small eagle on reverse, and 15 stars on obverse. Fine; far better than usually found of this rare variety. Listed at \$15.00 to \$25.00, and certainly worth it.
- 1785 1798 Heraldic eagle. H. 6, but with light circular die break on obverse; ten arrows in eagle's claw. Very fine; sharp, with raised border on obverse. Rare die.
- 1786 1798 H. 6, as last, but with perfect die. Extremely fine; sharp. Very scarce so choice.
- 1787 1798 H. 8. Very close date. Reverse, die break through branch and C. Extremely fine, with frosty mint luster.
- 1788 1798 H. 11. Struck slightly off center on reverse, giving it an unusually broad milled border on about half the coin. Just about uncirculated; sharp, with almost full mint luster; only highest portions show slight cabinet friction. The edge reads UNI instead of UNIT. Not a rare date, but certainly very rare in so choice condition. In comparison with large cents of this date, in corresponding condition, the coin would bring \$100.00.
- 1789 1798 H. 14. High 8 in date. Very fine; sharp; perfectly centered and struck. A most attractive coin.
- 1790 1798 H. 17. 8 touches bust. Extremely fine; sharp.
- 1791 1798 H. 28. The rare variety with peculiar curved die breaks on obverse below bust and through date. Extremely fine; the reverse is practically uncirculated with frosty mint luster. Rare so choice.

- 1794 1799 over '98, H. No. 3. Uncirculated; sharp, with frosty mint surface. A beautiful specimen, with broad milled borders, and perfectly centered. A common date, but certainly very rare so choice. Valued at \$28.00 by former owner.
- 1795 1799 H. No. 8. Very fine; sharp, with considerable luster.
- 1796 1799 H. No. 9. Light die break below bust. Practically uncirculated; only highest portions show slight cabinet friction.
- 1797 1799 H. 10. Several die breaks on obverse. Uncirculated; slight cabinet friction on highest portions. Very rare so choice.

- 1811 1802 over '01. Unusually plain over-date; entire top of 1 showing. H. No. 1. Very fine.
- 1812 1802 over '01. H. 2. Only part of top showing; the 2 higher. Very fine, with some luster.
- 1813 1802 Perfect date. H. No. 6. Practically uncirculated, with frosty mint surface.
- 1814 1803 Large 3 in date, H. 2. Extremely fine; sharp; the reverse is really uncirculated; with mint luster. Rare so choice. Said to have cost over \$20.00.
- 1815 1803 Small 3 in date. Fine. Rare; far more so than the large 3.

- 1825 1845 Uncirculated, with mint luster. Very scarce. Listed at \$7.50.

- 1831 1851 Perfect brilliant proof; sharp wire edge. Excessively rare. One of our rarest Dollars, the value of which has not been appreciated. Record over \$125.00.
- 1832 1852 About uncirculated; highest portions show slight cabinet friction. Apparently originally struck as a proof. Another great rarity of our Dollar series.
- 1833 1853 Beautiful uncirculated specimen, with full frosty mint luster and wire edge. Just about as perfect as the day it was minted. Quite rare so choice.
- 1834 1854 **Perfect brilliant proof; sharp edge.** A magnificent specimen. Rare date, but in proof condition, I consider it as rare as 1851 and 1852. An uncirculated specimen lists at \$17.50, and I believe that there are fewer proofs of this date than there are of 1851 and 1852. (Valued by former owner at \$50.00.)

- 1882-A 1900 Washington Lafayette. Portraits of Washington and Lafayette. Reverse, statue of Lafayette. A beautiful, historical and interesting coin, and the only commemorative Silver Dollar. Only 40,000 coined and well distributed, so that a mint specimen is very scarce indeed. This one is absolutely bright mint uncirculated.
- 1883 1921 The Morgan type, as last. Proofs were not supposed to have been struck, but this specimen, while I am classifying it as a brilliant semi-proof, but it is just as perfect a brilliant proof as any of them, and as such, I consider it rare and valuable.

ROUND PANAMA-PACIFIC FIFTY-DOLLAR GOLD PIECE

- 2105 1915 Fifty-Dollar Gold Piece of the Panama-Pacific issue. Round. Uncirculated, perfect in every respect, with frosty mint luster. In fact, just as perfect as the day it was minted. Only 574 were sold by the Commission, and the balance, re-melted. In other words, only 574 are or were in the hands of collectors and other individuals. A goodly number of them have been carried as "pocket" pieces; others have been carelessly handled by non-collectors, so it is not often that we meet up with a perfect specimen without the slightest nick or flaw. Very rare and in great demand. Now retails at \$350.00 and more, especially when so choice, as is the specimen here offered.

(A continuation of the gold series of this great collection, the Pioneer Gold Series, is resumed with lot No. 2207.)

U. S. FIVE-CENT NICKELS

The nickel Five-Cent pieces, even more so than the Small Cents, have been and are in great demand, and their values, especially in choice condition, have increased greatly in just the past couple of years. Some specimens are selling at upward of ten times their prices of just a few years ago. With the greatly increased, and steadily increasing number of younger collectors, I unhesitatingly predict that the seemingly high prices these nickels bring now, will seem insignificantly low within the very near future. The collection here offered is about as perfect as it is possible to obtain. The rare Pattern Five-Cent Nickels are also included in this Collection.

- 2106 1865 (The regular issue did not begin until 1866.) This is type of 1866, with stars and bars around figure 5. Very rare. Only about 15 struck. Brilliant proof. At least a \$25.00 coin.

- 2112 1867 The excessively rare variety, with rays through stars. Perfect **brilliant proof**. High wire edge on reverse. Not even listed in proof in the standard catalog. Recent record of about \$15.00, and certainly worth more.

- 2118 1869 Pattern. Head as on the 3c nickel. Reverse, large V in wreath. Nickel proof. A-W 803. Rare. Only about 100 coined. On that basis, it should bring at least \$10.00 to \$15.00.

COMPLETE SET OF U. S. THREE-CENT NICKELS

- 2187 1865 to 1889 inclusive, including the 1887 over '86 and perfect date. All **brilliant proofs**. Each coin in a separate holder with gold borders. A beautiful set, difficult to obtain. This set catalogs and has a record of about \$70.00, and it will not surprise me to see these sets bring \$100.00 in the very near future. Please remember that each and every coin in this collection is a perfect brilliant proof. Please make your bids not by the set but at so much by the piece. 26 pcs.

PATTERN THREE-CENT PIECES

- 2188 1863 Pattern Three Cents. Type and size of large copper cent, with the exception, on reverse, 3 CENTS in wreath. Struck in copper. Beautiful iridescent proof. Only about 50 coined, and probably half that number known to exist. Curious. Rare, and of highest interest. Retail at \$15.00 and more.
- 2189 1868 Pattern Three-Cent Nickel. Type of regular issue, but larger planchet, and laurel wreath. A-W 692, Rarity 12, which I think is over-rated, as on the basis of this rarity, only about 8 coined, and I have handled more than 8 myself. Brilliant proof. Said to have cost \$7.50.
- 2190 1869 Pattern Three Cents. Type as last. A-W 814, classed as Rarity 13, which I also think is greatly over-rated, but quite rare. Perfect brilliant proof.
- 2191 1881 Pattern 3c. Obverse, type of 5c nickel. Reverse, type similar to regular issue. A-W 1651, Rarity 8, but I consider it five times as rare as the preceding lot. Cost \$10.00.

U. S. TWO-CENT PIECES

- 2192 1864 The very rare variety with small motto. Beautiful sharp un-circulated specimen, with iridescent purple proof surface. Catalogs at \$10.00, but sells for a great deal more, especially in this wonderful condition. Purchased by Mr. Hale from J. W. Scott, who may be classed as the "Father of American Numismatics."
- 2193 1864 Large motto. Perfect brilliant proof. Catalogs at \$5.00. (I remember the day when almost a complete set of the 2c pieces could be purchased for a little more than this coin now sells for).
- 2194 1865 Brilliant iridescent purple proof. Just as rare as last. Catalogs at \$5.00.
- 2195 1866 Brilliant iridescent proof. Just as rare as last.

- 2202 1873 Last and rarest of issue. Light brilliant proof. Very rare and in great demand. Retail record of \$20.00. Catalogs at \$15.00.

PATTERN TWO-CENT PIECES

- 2203 1836 Eagle standing, date below; legend. Reverse, large TWO CENTS, in two lines, in wreath. Struck in copper. Plain edge. A-W 58. Only about 20 coined. Brilliant iridescent proof. Rare and valuable. The first coin of this denomination made at the Mint.

- 2204 1863 Type of regular issue, adopted in 1864, with the exception that the word CENTS is more curved. Brilliant proof. Purchased by Mr. Hale from the late J. W. Scott, back in 1910. A-W 412. Copper proof. Very scarce. Far more rare than the 1873.
- 2205 1863 Pattern Two Cents. Same type as last, but struck in light copper-nickel. Sharp wire edge. Light brilliant proof. Very rare. Should bring as much as any 2c piece, if not more.

**PIONEER, TERRITORIAL, and PRIVATE ISSUES OF GOLD COINS
ISSUED IN UNITED STATES**

Including Some Great Rarities of Every Series, with a Complete Set of the
Pikes Peak Gold Coins, including both Twenties

**GOLD COINS ISSUED IN CALIFORNIA
FIFTY-DOLLAR GOLD PIECES**

- 2207 1855 \$50.00. Wass, Molitor & Co. Round, as all are. A strictly fine specimen of this very rare and much sought-after coin. The usual light nicks found on this piece; but the word DOLLARS on reverse which is usually hardly noticeable, are very plain on this specimen. It is far above the average, and I have known of no better specimens to sell for \$600.00 and more. This coin cost \$500.00 over fifteen years ago.
- 2208 1851 \$50.00. August Humbert. Variety with 887 THOUS. Milled edge. Strictly very fine, especially for this piece. Free from any serious nicks or dents. A coin that cost \$275.00 a goodly number of years ago, and should bring more today. Valued by former owner at \$350.00.
- 2208-A 1852 \$50.00. Augustus Humbert. The very rare variety with small date, and 887 THOUS. A far-above-the-average specimen of this rarity. Strictly fine; can be classed as very fine for coin. Seldom found so choice. Listed at \$300.00. Very rare and valuable.

**The EXCESSIVELY RARE WASS, MOLITOR & CO. TWENTY-DOLLAR
GOLD PIECE**

- 2209 1855 \$20.00. Small head, W. M. & Co. on diadem; date below; thirteen stars. Reverse, small eagle, 900 THOUS. on scroll above; legend, SAN FRANCISCO CALIFORNIA TWENTY DOL; milled edge. Extra fine, with traces of original mint luster. One of the finest specimens known. Old record of \$500.00. It is one of the rarest of all Pioneer gold coins, the rarity of which has not been fully appreciated. It is far more rare than the Pikes Peak \$20.00 which has a record of \$1,000.00.
- 2210 1853 \$20.00. Moffat & Co. Practically uncirculated; slight cabinet friction on highest portion of obverse; the reverse is with frosty mint surface. This is a very scarce coin in any condition, but really rare when so choice. In this remarkable condition, it should bring into the three-figure mark.
- 2211 1853 \$20.00 U. S. Assay. Eagle with shield and ribbon as on the \$50.00 gold pieces. 900 THOUS on scroll above; reverse, inspection in four lines on tablet on engine-turned design. Very fine. Scarce so choice.

- 2212 1854 Kellogg & Co. Type of regular issue, but with KELLOGG & CO. on diadem, and the legend on reverse reads SAN FRANCISCO CALIFORNIA TWENTY D. Extremely fine; just a shade from uncirculated. Very scarce so choice.
- 2213 1855 Kellogg & Co, \$20.00. Just as last, but variety with long arrowheads. A light nick on obverse, otherwise extremely fine; sharp.
- 2214 1855 Kellogg & Co., \$20.00. Variety as last but with short arrowheads. Few very light nicks as usual, otherwise very fine.
- 2215 **Ten Dollars**, 1849 Moffat & Co. Large Liberty head. Variety with TEN D. on reverse. Strictly fine. Rare.
- 2216 \$10.00, 1852. Wass Molitor & Co. Large head variety. Figure 2 of date out of line. Nick on obverse edge, where some dam fool tested it, otherwise very fine; far above the average for this difficult coin to find choice. Rare and valuable.
- 2217 \$10.00, 1852, Augustus Humbert. Variety with 884 THOUS. About fine. Listed at \$60.00. Rare.
- 2218 \$10.00, 1852, Augustus Humbert. As last, but with die break across reverse. About fine. Rare.
- 2219 \$10.00, 1853, U. S. Assay. Variety with 900 THOUS. The rarest of the issue. About fine. Listed at \$50.00.
- 2220 **Five-Dollars**, 1849, Norris, Griegg & Norris. Eagle with shield on breast with figure 5. Variety with plain edge. Extremely fine, with considerable original mint luster. Rare so choice, as this coin is seldom found with the 5 on eagle's breast shown. This one is very plain. Rare and valuable, especially so choice.
- 2221 \$5.00, 1849, Moffat & Co. Strictly very good; the reverse is fine. Scarce so choice. Listed up to \$20.00.
- 2222 \$5.00, 1850, Moffat & Co. Just about uncirculated, with frosty mint luster. Very rare so choice.
- 2223 \$5.00, 1850, Baldwin & Co. A light scratch on obverse, otherwise strictly fine, especially for this coin, which is seldom found better than good. Very rare. Listed at \$150.00, and has sold at that price and more.
- 2224 \$5.00, 1852, Wass Molitor & Co. Very good. Very rare. Record up to \$100.00.
- 2225 \$5.00, 1849, Massachusetts & California Co. Milled edge. Struck in copper. Fine. Very rare. A gold specimen of this coin has sold for \$7,900.00, of which only three specimens are known to exist. I doubt if there are more than ten at the utmost known of these coins in copper. Record for this piece up to \$150.00.
- 2226 **Quarter-Eagle**, 1848, \$2.50 Gold. Type of regular issue, but with CAL stamped over eagle. This was done while the coin was still in the die. Struck from the first gold mined in California. Very fine. Very rare. Listed at \$100.00.
- 2227 **Calif. Gold Dollar**, 1854. Type of the \$50.00 Gold Piece; octagonal, with milled edge. Extremely fine. Very rare. Retail up to \$25.00.
- 2228 \$1.00, 1853. Small perfect Liberty head; thirteen stars. Reverse, value in date in dotted circle. Octagonal; milled edge. About uncirculated.
- 2229 **Calif. Tokens**. 1849. Liberty head. Reverse, miner panning gold, date below. Brass; thin planchet, milled edge. Nearly uncirculated.
- 2230 1849 Calif. Token. Type as last, but struck on a much thicker planchet, with plain edge. The Liberty head is much larger; the date curved. Reverse, same design as last, but of an entirely different die. Struck with raised borders and die break on right edge. The first I have ever seen. Very fine. Very rare.

COLORADO GOLD COINS COMPLETE SET of PIKES PEAK GOLD

- 2231 1860 Twenty Dollars. Clark, Gruber & Co. View of Pikes Peak. Reverse, eagle. Strictly very fine; usual light nicks, but above the average in condition. Probably the most popular and sought-after coin of the entire Pioneer Gold Series. Excessively rare. Record up to \$1,000.00.
- 2232 1860 \$10.00. Same type as last; view of Pikes Peak. Very fine; sharp. Rare in demand.
- 2233 1860 \$5.00. Liberty head, with diadem inscribed CLARK & CO. Extremely fine; sharp, with mint luster, with three or four light pin-point marks. Very scarce. Record over \$30.00.
- 2234 1860 \$2.50. Same type as last. Fine, but light nick on reverse. Very scarce.
- 2235 1861 Twenty Dollars. Liberty head, with diadem inscribed PIKES PEAK. Reverse, type of regular issue, but with legend, CLARK, GRUBER & CO. DENVER. TWENTY D. Very fine. Extremely rare. Listed at \$350.00, but I think it is almost as rare as the 1860.
- 2236 1861 \$10.00. Type as last. Very fine; sharp. Rare; far more so than is generally recognized, especially in choice condition. Listed at \$35.00, and certainly worth it.
- 2237 1861 \$5.00. Type as last. Fine. Very scarce.
- 2238 1861 \$2.50. Same type as last. Fine to very fine. Very scarce; more so than the \$5.00 or \$10.00 of this issue.
- 2239 Pattern Set for the Colorado Gold Coins. \$20.00, 1860 and 1861. \$10.00, 1860, 1861; \$5.00, 1861; \$2.50, 1861. The \$10.00 of 1860 is a brilliant proof, and is far more rare than the gold specimen. The others are extremely fine to uncirculated. The \$10.00 of 1860 alone, cost \$25.00. 6 pcs.

UTAH or MORMON GOLD COINS

- 2240 \$2.50, 1849. Bishop's hat over all-seeing eye. Reverse, clasped hands, date and inscription. Small nick on edge; hardly noticeable. Strictly fine. Very rare. Listed at \$150.00.
- 2241 \$5.00, 1849. Type as last. Very fine. Rare, as this coin is seldom found better than good. Listed at \$60.00 and certainly worth it.
- 2242 \$5.00, 1860. The rare variety with lion and beehive. Lightly scratched through legend, otherwise very fine; loop removed from edge, but hardly shows. The most interesting coin of this series, and in perfect condition has sold upward of \$100.00.

OREGON TERRITORY \$5.00 GOLD

- 2243 1849 \$5.00. Beaver, T. O. (for Territory of Oregon), date below. Reverse, inscription. A very small planchet defect at 9 of date, otherwise strictly very fine, especially for this coin. It could be classed as extremely fine. Very rare. Listed at \$150.00, but I know of one specimen, a trifle better, which has sold for \$250.00.

CAROLINA and GEORGIA GOLD COINS

- 2244 \$5.00, A. Bechtler RUTHERFORD. Reverse, 134 G. 21 Carats. Extremely fine, with considerable mint luster. This series is the first private minted gold coins in the United States. For some reason or other, they are not in very great demand at this moment, so the wise collector should invest in them now while their values are not as high as they were.
- 2245 \$5.00, C. Bechtler at RUTHERF. 134 G. 21 Carats. Practically uncirculated, with frosty mint luster. A beauty. These have sold up to \$75.00 each. Listed at \$40.00, and certainly worth it.
- 2246 \$5.00, C. Bechtler. Type as last on obverse with the exception of RUTHERFORD instead of RUTHERF. Reverse, dated AUGUST 1, 1834. Variety 140 G. 20 Carats. Extremely fine; sharp. Very nearly uncirculated. A beautiful and interesting coin.
- 2247 \$5.00, C. Bechtler. Same type as last, but variety with RUTHERF instead of RUTHERFORD. About fine. Very rare. Listed at \$60.00.
- 2248 \$5.00, Georgia Gold, C. Bechtler at RUTHERFORD. 128 G. 22 Carats. Practically uncirculated; sharp, with bright mint luster. Extremely rare. Listed at \$100.00, and has sold for a great deal more in the past. A real rarity.
- 2249 \$5.00, C. Bechtler, Georgia Gold. Type as last, but variety with RUTHERF. Very fine; sharp. Also has a record of over \$100.00, but is not as rare as last.
- 2250 \$2.50, Georgia Gold. Large 2.50 in center, BECHTLER RUTHERF. Reverse, 64 G. 22 Carats. Very fine, sharp. Rare. Listed at \$65.00, but has sold for more in the past.
- 2251 \$2.50, Carolina. Type similar to last, but with 67 G. 21 Carats. Extremely fine. Very rare. Cost \$65.00 in 1931.
- 2252 \$2.50, Carolina. Type similar to last, but the excessive variety with 70 G. 20 Carats. Very fine. Mr. Hale bought this coin in 1931 at \$135.00, and at that time, the record was \$160.00.

- 2253 \$1.00, A. Bechtler. 27 G. 21 C. Raised borders. A pin-point planchet defect, which looks like a nick, but is not. A beautiful uncirculated specimen, with full mint luster. This coin is usually found bent which is due to the fact that they were bent to test their genuineness. In uncirculated condition, the coin is a real rarity.
- 2254 \$1.00, Bechtler RUTHERF. 28 G. The ONE is with inverted N. Uncirculated. Scarce variety in rare condition.
- 2255 \$1.00, N. Carolina. Perfect N, and the extremely rare variety without star on reverse. Catalogs at \$30.00, and certainly worth it.

Lot No. 2257

REMARKABLE COLLECTION OF MEDALS of the WORLD WAR
Struck by K. Goetz, Munich, 1913 to 1921

This remarkable collection of medals was purchased by Mr. Hale in my Sale of April, 1923. The following is a description of the collection as a whole:

"The following collection of Medals of the World War were made by K. Goetz, Munich, Germany, 1913 to 1921. This is one of the most remarkable sets of Medals ever issued. As a whole, the collection represents practically a complete history of the World War, from the German point of view.

"Every specimen of the following Medals is an original, perfect, just as struck, and the greater majority of them are of the highest artistic designs. All are cast or struck of bronze, excepting two, which are cast in iron. As the greater majority of these Medals are scarce, rare, and as the average retail prices for them are \$2.50 to \$6.00 each, therefore, in order to save time, bids for less than \$1.00 will not be considered for any Medal. Also, since it is the first complete collection of these Medals offered in this country, bids will be entertained for the entire collection of the Medals as a whole."

When this Collection was offered by me sixteen years ago, each medal was described separately, and it required no less than nine pages of catalog description. Today, this remarkable Medal Collection is even of far greater historical as well as numismatic interest. The majority of the Medals are all large; a few are oval, and some measure up to 115 mm, (about 4½ inches in diameter). There are also eleven small silver medals, all size 23 mm. and all of beautiful designs; struck in 1915 to 1918.

A copy of my Catalog of April, 1923, is included with the lot so that the purchaser may have a complete description of each and every Medal, which is in the original envelopes as cataloged and purchased by Mr. Hale in 1923, at which time the Collection brought \$370.00. They have been in the original envelopes since purchase. I believe that with the present conditions in Europe, that these Medals are of greater historical interest than ever before. I do not recall of ever having seen a duplicate complete set such as this, and certainly believe that they are worth a great deal more than they were sixteen years ago. The Collection, in order to appreciate it, must be seen, as it cannot be adequately described. Please make your bids for the entire collection of 150 Medals as a whole.

Every phase of the World War is most artistically depicted in the finest form of medallic art, and of course, most adequately described. It is a history in itself.
